

PLASTIC ODYSSEY

AROUND THE WORLD POWERED BY PLASTIC

1 min =

Only 1% is floating...

...therefore, it must be treated at its roots

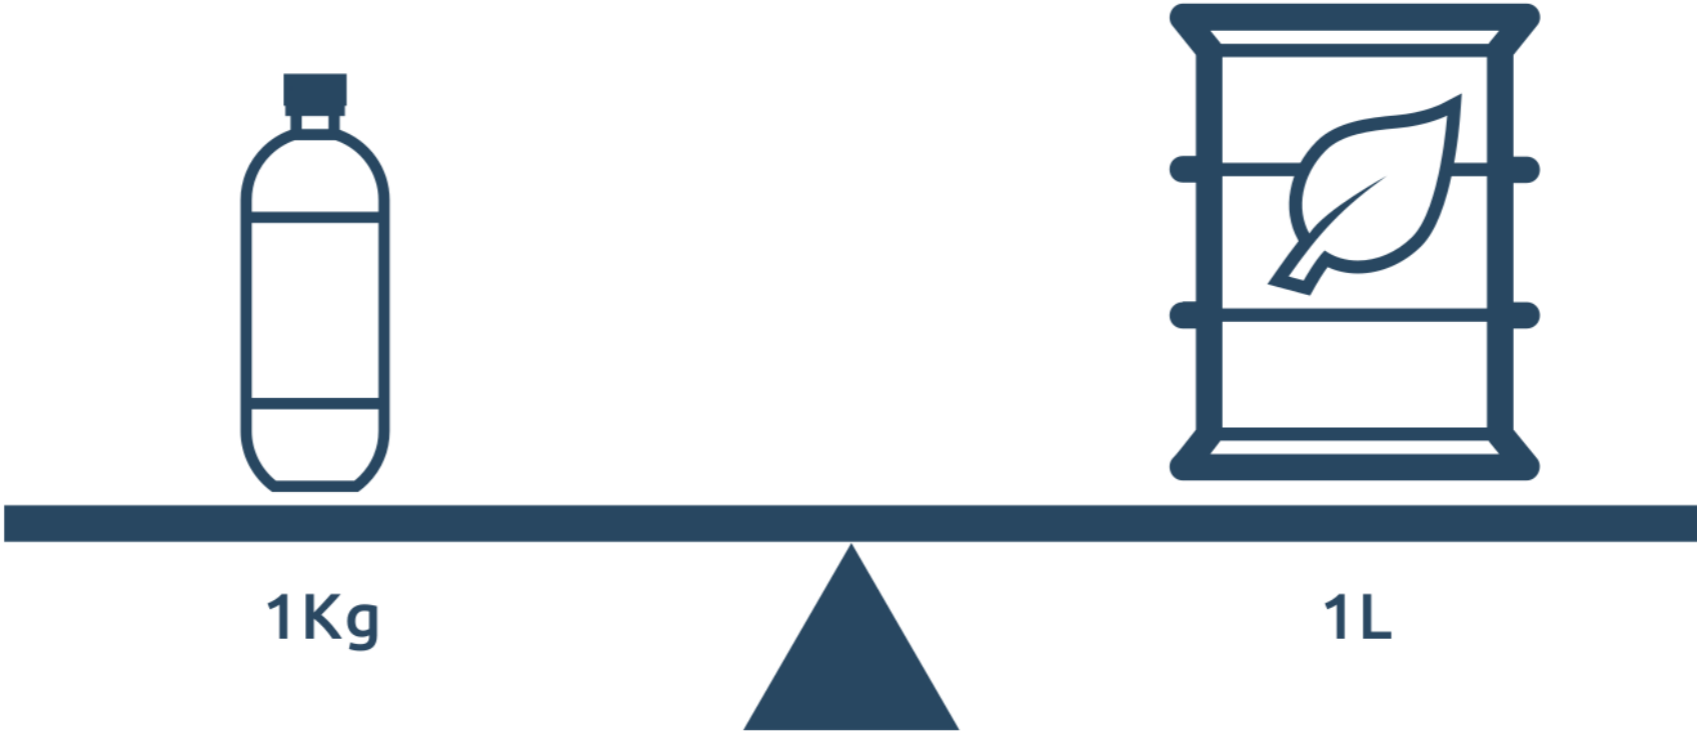

Plastic is a valuable material

Pyrolysis

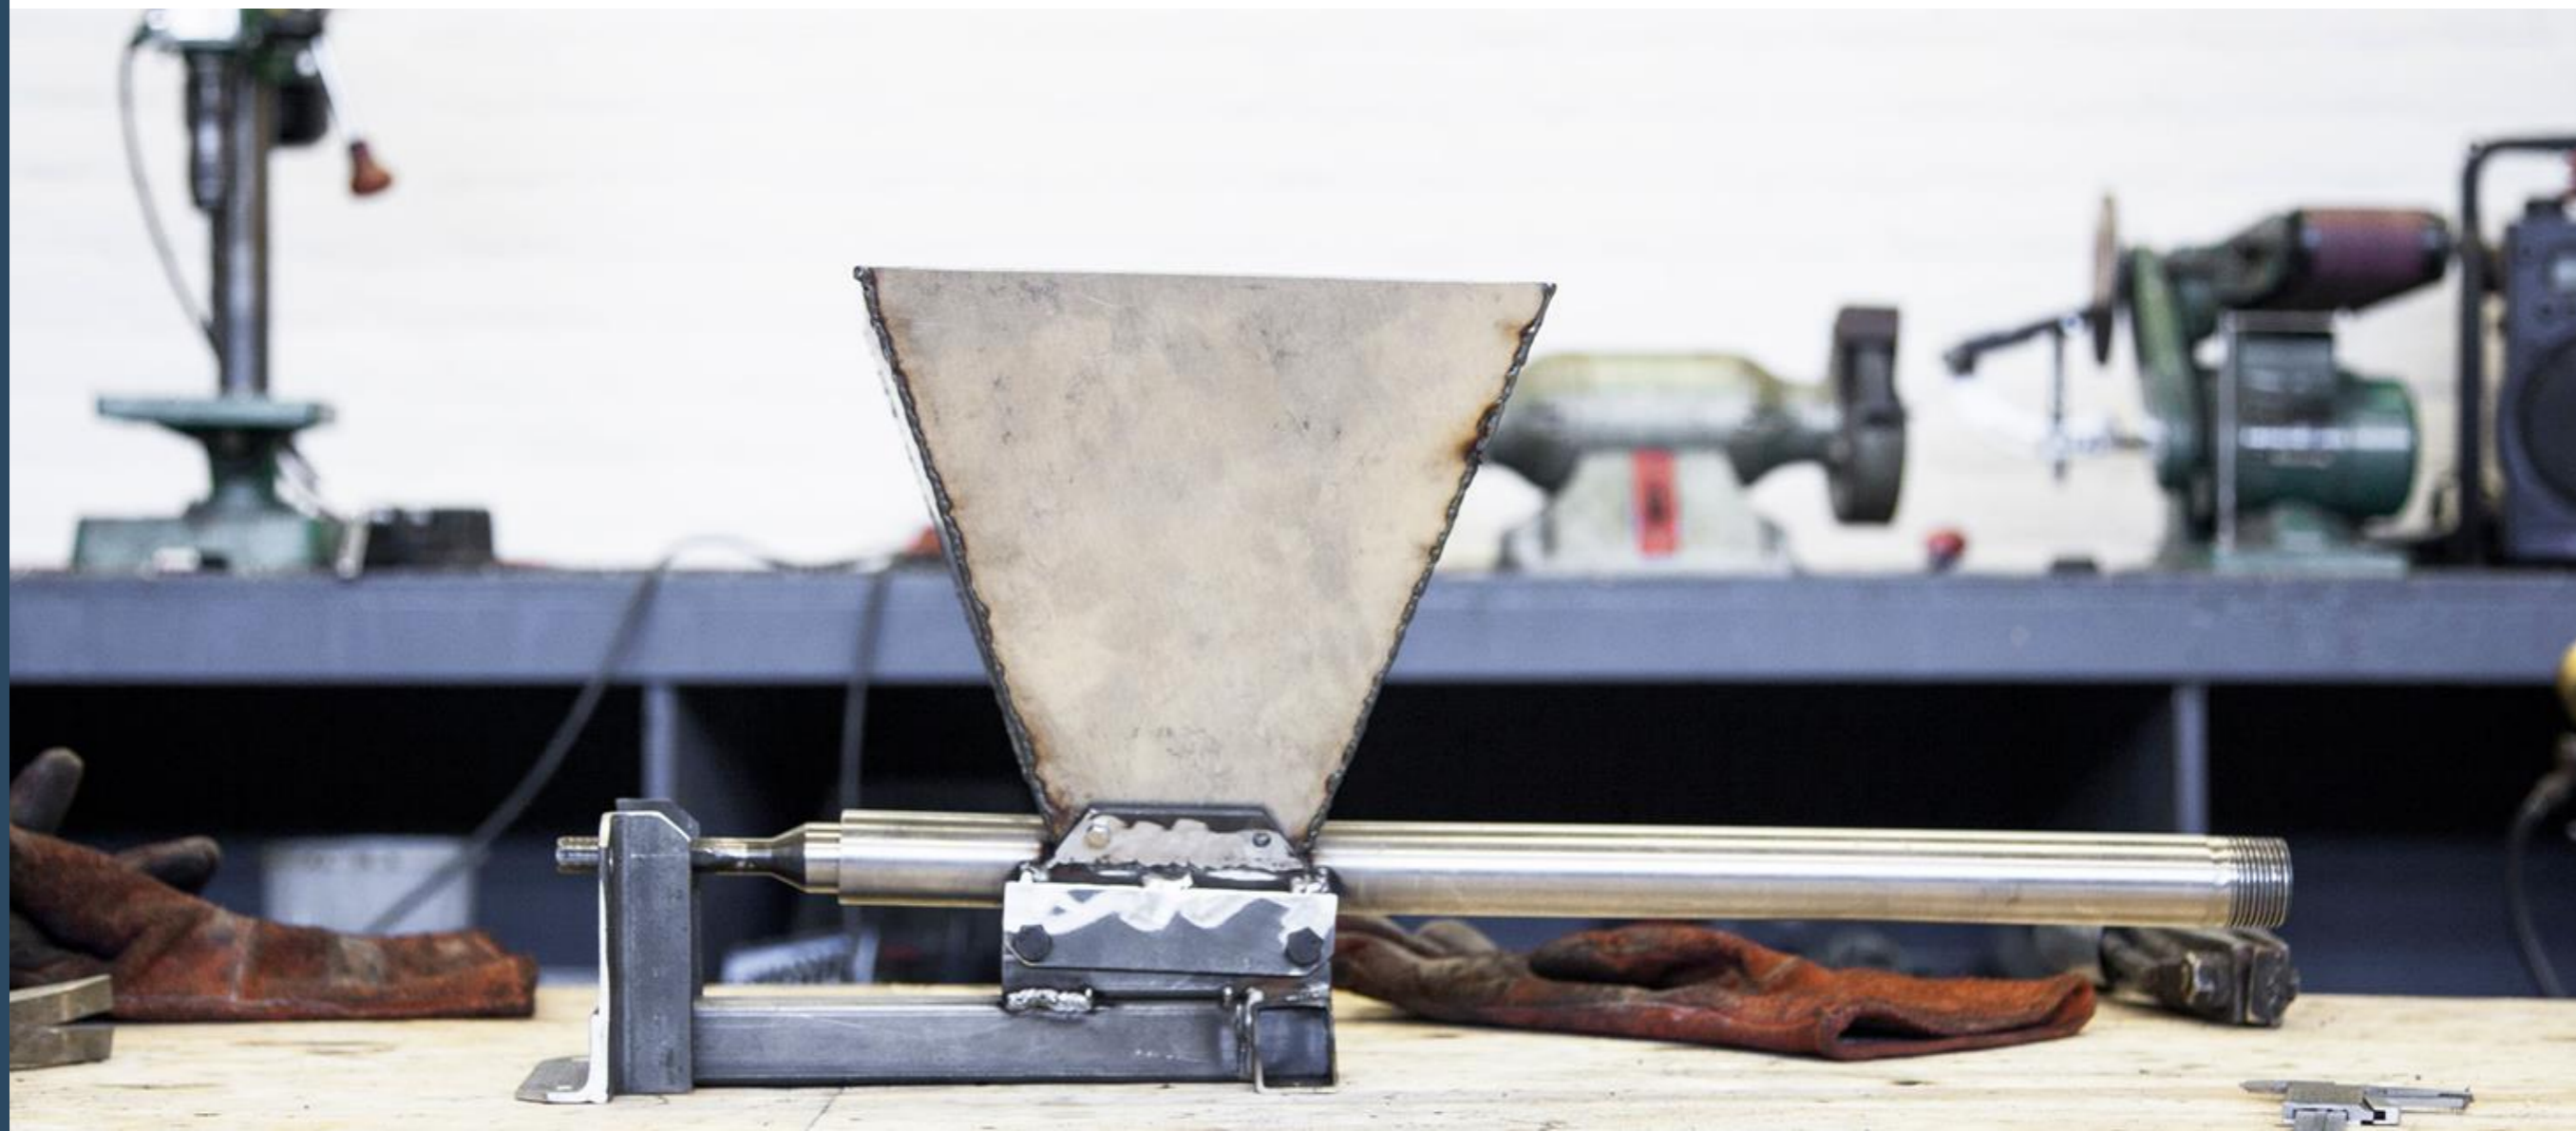

Solutions exist but
are often unknown or
not adapted

Small Scale

Low Tech

Open-source

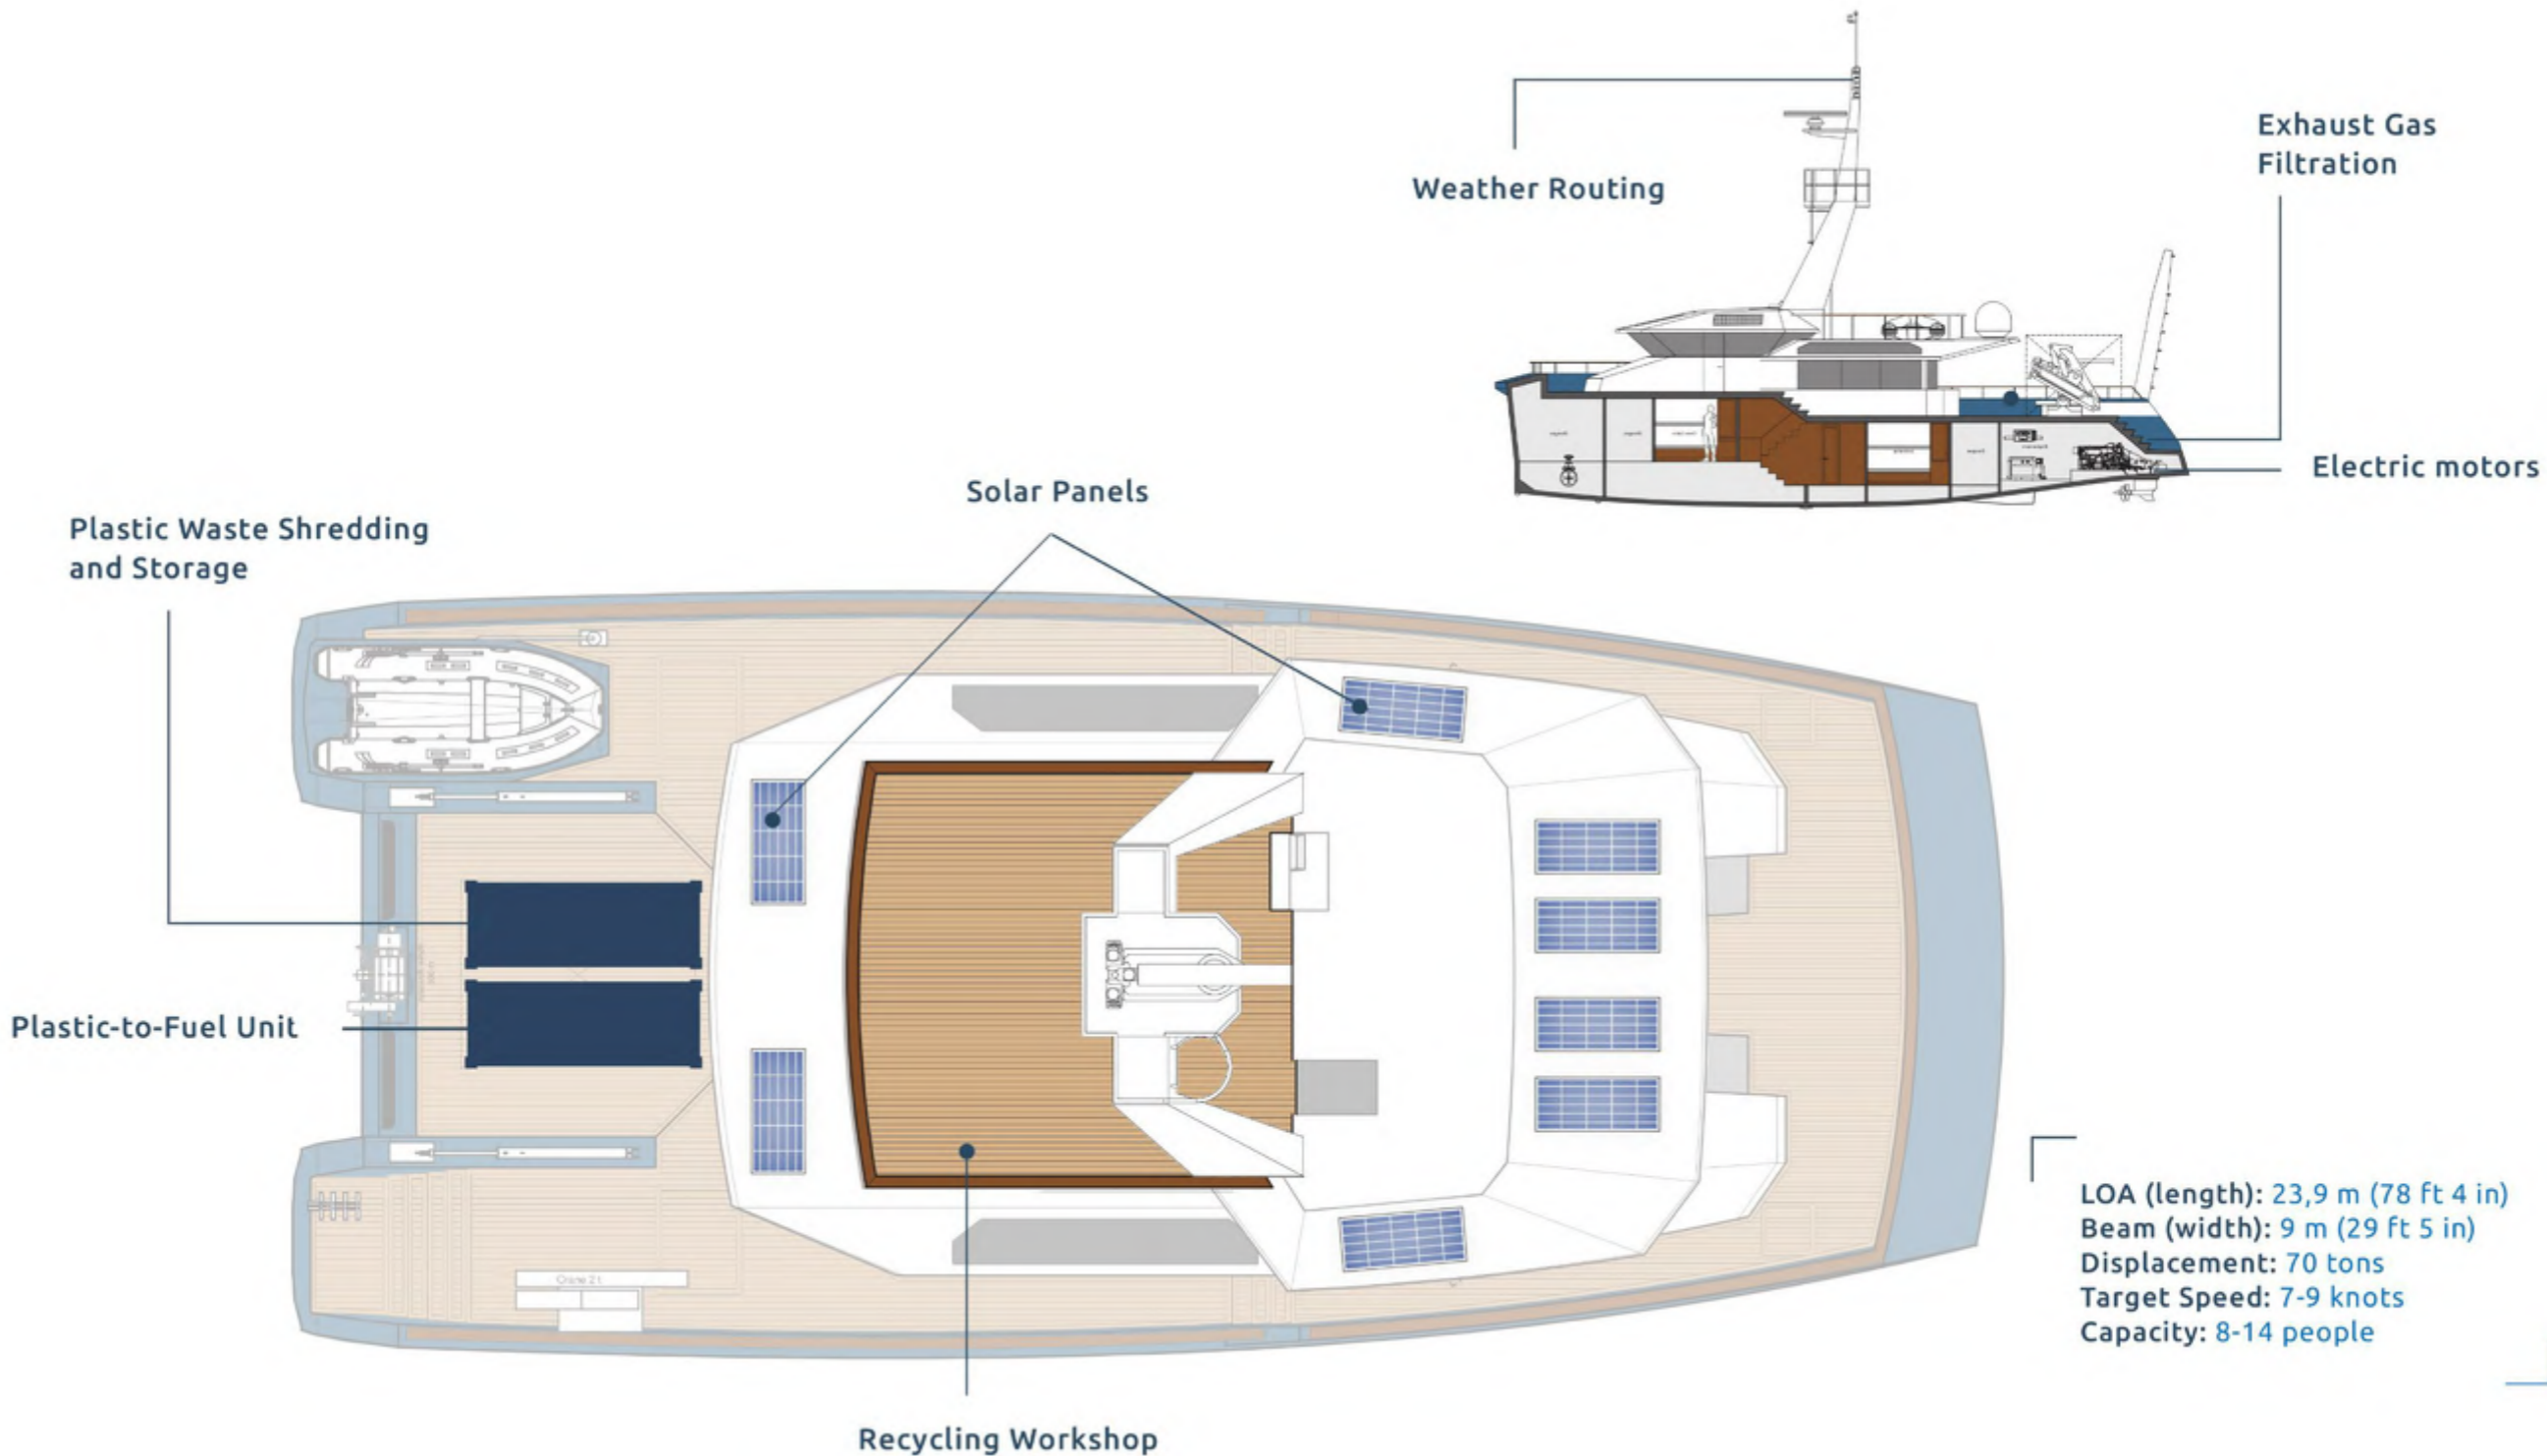

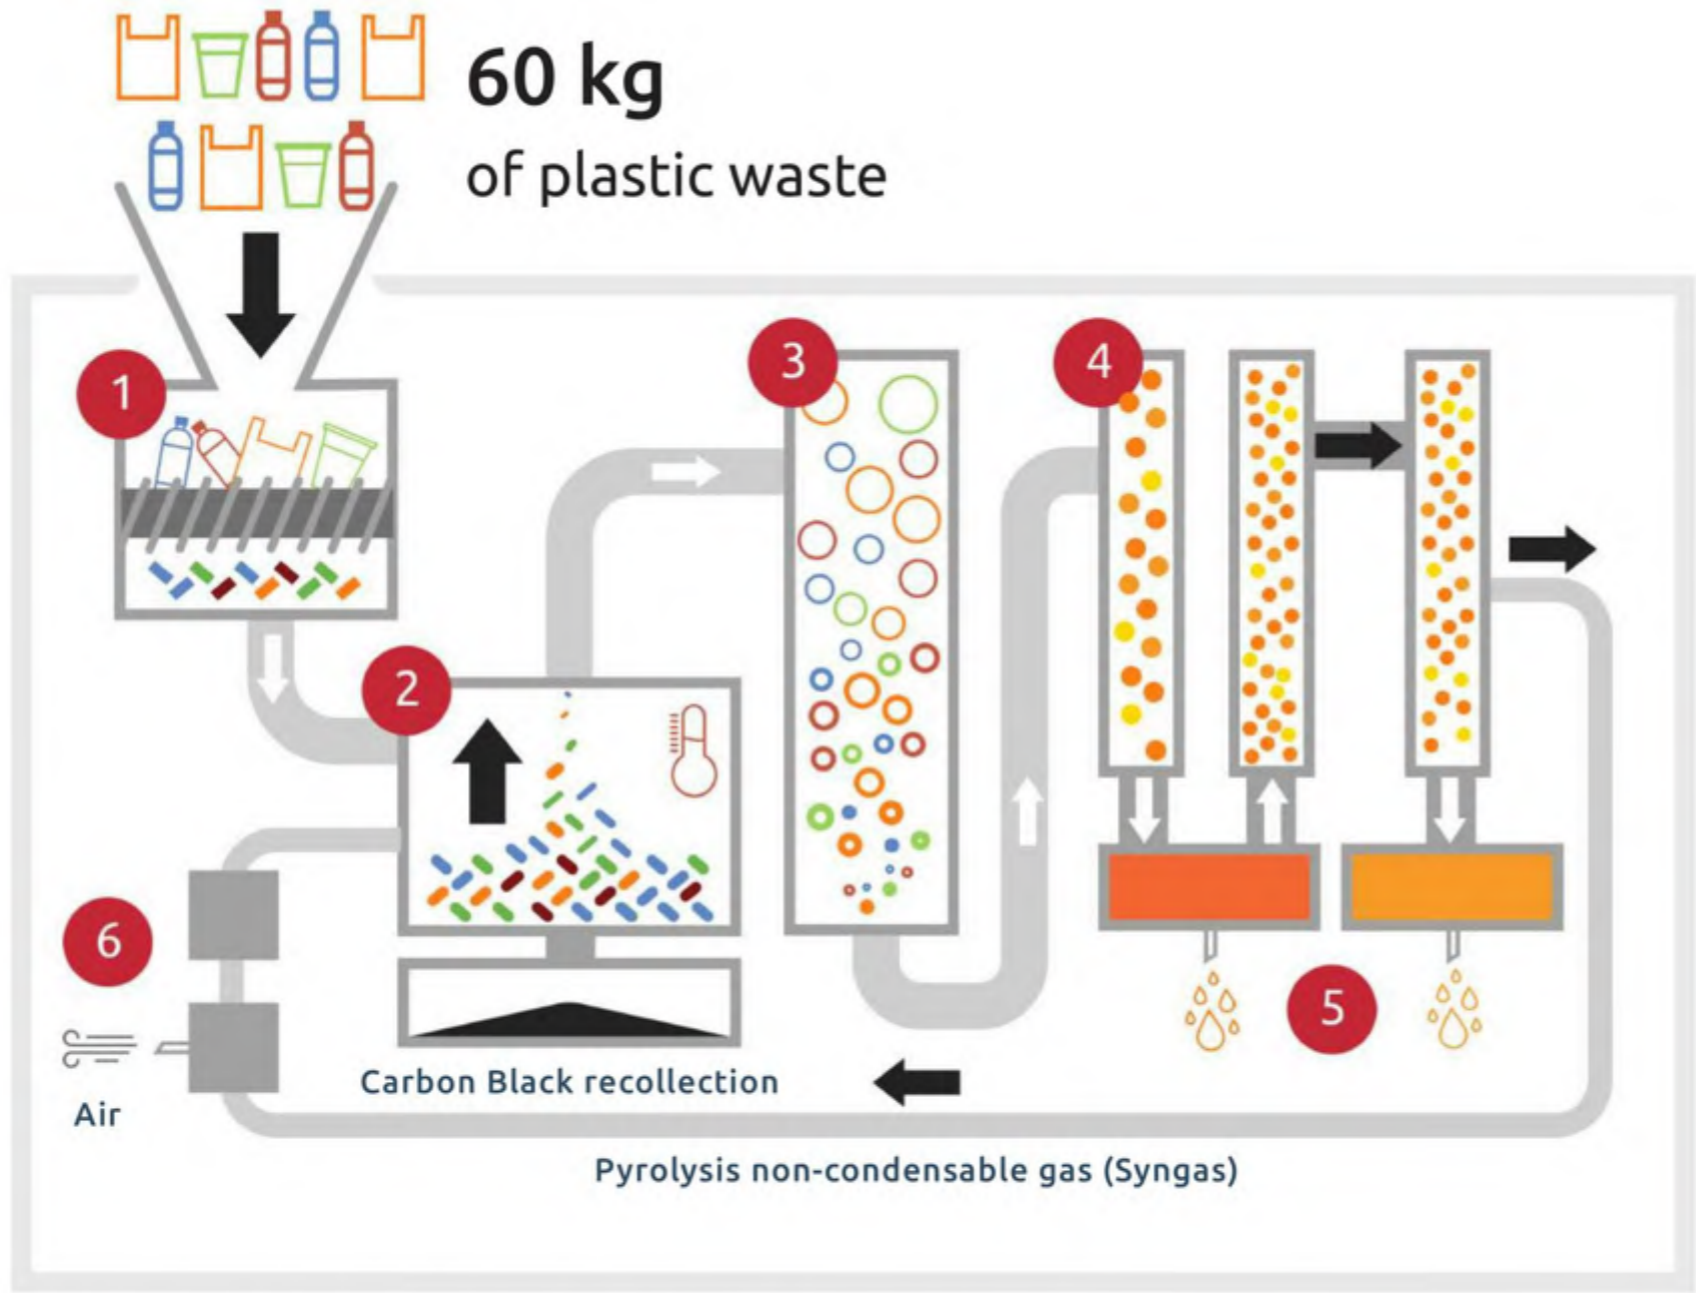

PLASTIC ODYSSEY EXPEDITION

2018 - 2020

An ambassador of
recycling technologies

60 kg
of plastic waste

 **3h**
processing time

45 l **15 l**
of Diesel of Gasoline

VIEW OF THE CONTAINERISED PYROLYSIS UNIT

Initiating human-scale solutions around the world

P O C

PLASTIC ODYSSEY CONCEPT

2018

6m long demonstrator

Lab scale Pyrolysis Unit

4 kg / h of plastic waste
